

# PCCG NET CONTROL STATION SEVERE WEATHER NET SCRIPT

## PERIODIC ANNOUNCEMENT

This is \_\_your name\_\_ , \_\_your callsign\_\_ , (for example: Tom, N4ARS)  
Net Control Station for the Pickens County Emergency Communications Severe Weather Net. The purpose of this DIRECTED NET is to obtain reports of severe weather events occurring in Pickens County, South Carolina. These reports will be made available to the Pickens County Emergency Management Center and also to the National Weather Service.

Reporting of weather events MUST meet the National Weather Service's SKYWARN criteria; and can include sightings of

- Tornado's, Funnels, or Wall Clouds;
- Quarter size hail or larger;
- Wind gusts 58mph or higher;
- Flooding,
- and Storm damage.

All stations are reminded that this is a DIRECTED NET, and ALL STATIONS must contact Net Control prior to proceeding with any transmissions. In the event you need to contact another station, ask Net Control first, and you will be given permission to contact your station when time and conditions permit.

This is \_\_your callsign\_\_ NET CONTROL, STANDING BY.
